

DHATCHAYANI G

PHP Developer | Laravel | Full Stack Web Developer

☐ 7305894469 | ☐ dhatchu1810@gmail.com | ☐ Chennai, India | [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

Dedicated PHP Developer with 2 years of hands-on experience building dynamic, scalable web applications using PHP 8+ and Laravel framework. Proven ability to develop RESTful APIs, implement secure authentication systems, manage MySQL databases with Eloquent ORM, and deliver responsive front-end interfaces using HTML5, CSS3, Bootstrap, and JavaScript. Experienced in full-cycle development from requirement analysis to deployment. Immediately available and eager to contribute to a high-performing development team.

TECHNICAL SKILLS

Backend Development

- PHP 8+ — Core PHP, OOP, MVC architecture
- Laravel Framework — Routing, Middleware, Eloquent ORM
- Blade Templating Engine
- RESTful API Development & Integration
- Laravel Breeze, Sanctum — Authentication & JWT
- CSRF Protection, RBAC — Role-Based Access Control
- Razorpay Payment Gateway Integration

Database

- MySQL — Schema design, complex queries, optimization
- Eloquent ORM — Relationships, migrations, seeders

Frontend Development

- HTML5, CSS3 — Semantic markup, animations, transitions
- JavaScript (ES6+) — DOM manipulation, async/await
- Bootstrap 5 — Responsive, mobile-first design
- jQuery — AJAX calls, DOM events
- AJAX / Fetch API — Asynchronous data handling

Tools & Collaboration

- Git & GitHub — Version control, branching
- Postman — API testing and documentation
- OpenAPI — API spec documentation
- Cross-browser & responsive web testing

WORK EXPERIENCE

PHP Developer / Web Developer

Saveetha Institute of Medical and Technical Sciences (SIMATS) | Chennai, India | 2023 – Present (2 Years)

- Designed and developed full-stack web applications using PHP 8+ and Laravel, serving internal academic and administrative workflows.
- Built and maintained RESTful APIs consumed by front-end applications, ensuring clean data contracts and proper HTTP status handling.
- Integrated Razorpay payment gateway into a Laravel application, handling webhook verification and transaction lifecycle management.
- Implemented user authentication and authorization using Laravel Breeze and Sanctum, with Role-Based Access Control (RBAC) for multi-user systems.
- Designed normalized MySQL database schemas and used Eloquent ORM for complex relationships, migrations, and query optimization.
- Created responsive, mobile-first UI layouts using Bootstrap 5, HTML5, CSS3, and JavaScript that worked consistently across major browsers.
- Used AJAX and Fetch API for asynchronous operations, improving page responsiveness without full reloads.
- Collaborated with cross-functional teams including designers and content managers, delivering projects on schedule.

- Managed codebase using Git for version control with proper branching and commit practices.

EDUCATION

B.Sc. Computer Science | Quaid-E-Millath College for Women (Autonomous)
Chennai, India | 2020 – 2023

KEY STRENGTHS FOR PHP DEVELOPER ROLES

⚡ API Development

REST APIs, Postman, Sanctum,
JSON responses

🔒 Secure Applications

RBAC, CSRF, Auth systems, input
validation

🗄 Database Design

MySQL, Eloquent ORM, migrations,
optimization
